Dan,

Please submit your NOI package ASAP. It does not have to be perfect. The way our process works is we date-stamp an NOI when we receive it, conduct an in-house review, and send out a letter to the operator either finding the notice complete and accepted, or listing deficiencies that need to be addressed before it can be accepted. Typically, deficiencies are found in most NOI's and very few are accepted the first time they are submitted. The letter listing any deficiencies provides a new time frame for the operator to correct the deficiencies. This basically extends the deadline for the approval process. Date stamping the submittals when we receive them is how we document operators meeting time deadlines, so it is critical that Pine Ridge submit the NOI sooner rather than later so that the public record shows that deadlines are being met.

I will be out of the office this afternoon through Wednesday down in SE Utah. Please don't wait for me to return to submit the NOI. I hope to see it when I get back in the office on Thursday.

Thanks very much for your cooperation.
